CHARCOAL Lighting Heater™

It's time to relish good taste, good health.

Healthy living doesn't mean not relishing the food you love the most. LG brings to you its new range of Lightwave Convection Microwave Ovens, which offer you a healthier way of cooking and the finest way to guilt-free indulgence. With a revolutionary Charcoal Lighting Heater™ you get tastier, all natural, deep even cooking in a shorter time.

CHARCOAL *fact*

Charcoal heating is a world's 1st heating grill that enhances water heat absorption, cooking more naturally and efficiently.

Delightfully healthy,
magnificently gourmet.

Enjoy the taste of tandoor cooked delicacies from the comfort of your kitchen. Cook grilled food but don't compromise on health. These ovens with Charcoal Lighting Heater™ preserve nutrition, and since the food is not exposed to fire and no smoke is emitted in cooking, it remains delicious and healthy. Perhaps the perfect companion for your barbecue parties.

Now with LG's Charcoal Lighting Heater™ you can enjoy food the healthy way.

Active Convection™

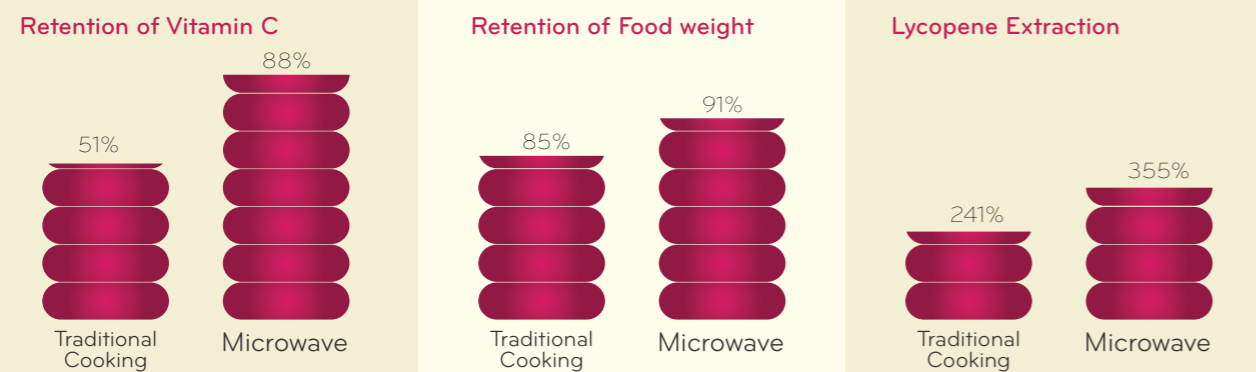

Enabled with four heaters that are uniformly placed to give you deeply and evenly cooked food. Active Convection™ also comes with adjustable speed for the convection fan and heat for the grills, saving you energy and time. Making it the world's first Active Convection™ Microwave.

Indian Bread Basket

Naans have never been more tasty! LG's Auto Cook Menu enables you to prepare a variety of Indian Breads like Parathas, Appams and Missi Roti.

See how you can retain more nutrients and cook healthy with Charcoal Lighting Heater™

According to an Internal Study conducted on three dishes (Stuffed Tomatoes, Stuffed Okra and Stuffed Eggplant), it was found that food cooked in LG's Charcoal Lighting Heater™ is healthier as compared to the food cooked by the Traditional Method. Also, cooking in LG's Charcoal Lighting Heater™ leads to better extraction of Lycopene and better retention of Vitamin C & Food Weight.
